Mrs. S.V.S.S. Lakshmi, Assistant Professor, Dept. of IT, S R K R College of Engineering, Bhimavaram, A.P., India, 95058 55845.

Theme of Session:

The session includes the role of the recommender systems and collaborative filtering in day-to-day life. Nowadays, Machine learning and artificial intelligence place a major role in everyone's life. So many innovations are depending on these areas. The main goal of this special session is to collaborate the academicians, researchers and students to focus on the recommender systems and their new innovations in these areas. The session is expected to provide an opportunity for the researchers to meet and discuss the latest solutions, scientific results and methods in solving intriguing problems in the fields of Machine Learning, Deep Learning, Data Science and Artificial Intelligence. So, the authors are solicited to contribute to the journal by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the areas of recommender systems and collaborative filtering with artificial intelligence. Contributions are expected to present original research on recommender systems and collaborative filtering with real world applications.

Topics of Interest:
